Two charming miniatures of local society women which are exciting much admiration are included in the collection being exhibited this afternoon at the Fairmont by Hardecastle Harrison, the London artist. They are those of Mrs. Henry Foster Dutton and Mrs. Robert Hayes Smith. Mrs. Dutton's is exquisite, being a wonderful likeness, with the details of a pearly-adorned evening gown and a ribbon of pale pink wound through the coils of her dark hair being executed with marvellous skill. The portraits of prominent persons here and abroad are of exceeding interest to society, aside from their artistic value.—S. F. Bulletin.

The members of Masonic lodges in Honolulu and their friends are planning to give a grand ball at the Alexander Young Hotel on Tuesday evening next to which hundreds of invitations are being issued. The affair will be given in honor of the district grand master who will arrive on Monday.

The Honolulu Dancing Academy entertained on Monday evening with a lunch basket party, which was greatly enjoyed by the guests. Each lady supplied a lunch for two in artistic cases, these being auctioned to the highest bidder, he who bought the basket of refreshments partaking of it with the lady (whose card he found within) at individual tables. From San Jose comes the announcement of the engagement of Miss Ellis Moon of that city and Claus Spreckels, Jr. Nothing has been given out as to the date of the wedding, but it is thought by the intimate friends of the young couple that the event is not far off. The betrothal is the outgrowth of a friendship of several years, which began when Miss Moon visited her brother at the Reed school, Belmont, where Spreckels was then a student.

Miss Moon is the daughter of Mrs. Frank Hall Moon, long a resident of San Jose. Her father, the late Frank Hall Moon, was a retired capitalist and lumberman of Wisconsin. He came to California a number of years ago and settled in San Jose, also building a spacious summer home in the mountains near Saratoga.

Miss Moon was educated at Norte Dame convent in San Jose and at Miss Mason's school in New York, specializing in Spanish, French and music. Mrs. Moon and her daughter are

socially well known in San Francisco as well as in San Jose, their home having been the scene of much entertaining for people prominent in both cities.—S. F. Call.

The Burton Holmes Travelogue season at the Garrick will start on Monday night. As usual Wright Kramer, the eminent actor and lecturer, will deliver the dialogue of the illustrated picture talks and the countries selected by Burton Holmes for this season's courses are the most interesting he has yet presented. The opening topic will be Hawaii. In company with Mr. Holmes, Mr. Kramer visited the islands last summer. Mr. Holmes was there the year before and also ten years before that, and the travelogue to be presented here will be a perpetual contrasting of the islands before and after annexation. "More about Pads" winds up the courses of this year. During the travelogue season the weeks are divided into two parts, Monday and Tuesday nights and Wednesday matinee, and Thursday and Friday nights and Saturday matinee. The box office for the travelogue is at Sherman, Clay & Co's.—S. F. Bulletin.

Pleasant indeed is the news that it has been definitely decided that Rear Admiral and Mrs. Uriel Sebree are to make their home in California, dividing their time between San Francisco and Coronado.

It was feared at one time that Washington City, the mecca towards which all those interested in either branches of the service appear to turn, would claim them.

Admiral and Mrs. Sebree were among those who left yesterday afternoon for Los Angeles, showing their preference for the sea by making their trip by water instead of by land.

The Admiral was one of the distinguished guests at the brilliant ball that was given at the Fairmont Hotel on Saturday evening for the benefit of the Columbia Park boys' club.—S. F. Bulletin.

The social event of the week was the tea at which Mrs. and Miss Ballentyne presided on Tuesday afternoon from four to six. The house was rendered doubly attractive by graceful sprays of rose pink carnations and delicate La France roses, in addition to many rare and beautiful ferns, hanging baskets, potted plants and stately palms.

Mrs. Ballentyne received with her daughter Miss Irma, assisted by Miss Marie Ballentyne. Mrs. Ballentyne was very attractively gowned in an imported mauve lingerie, heavily embroidered, while Miss Ballentyne, in a champagne lingerie frock and wearing pale yellow roses, looked beautiful.

Tea was served on the lanai, whence there is an inspiring view, and the guests thronged about, gathering in merry groups and admiring the array of handsome gowns seen on this occasion. Mrs. C. Hedeman presided over the coffee cups, and Mrs. L. Tenney Peck poured tea, while Mrs. E. M. Watson served a delicious punch. OUR MARVELOUS
Automobile Industry

The Scientific American of April 9th/10 has an interesting article, which shows the "stupendous" strides in the growth of the Motor Car Manufacturing business.

From \$57,000 in 1895 to \$237,000,000.00 in 1910. Nail this to your thinking machine, if you please.

The I. Iia Rubber World of New York in its April issue, says Manufacturers 20 years ago thought Rubber at 60 cents very high; that it sold in OPEN Market in London March 22nd. at \$2.67 (now it is over \$3 per lb.) Now look forward 20 years, and open wide the throttle of your brain, and think, think, THINK. With Autos becoming cheaper, as the Scientific American says in above referred to article, and of far better quality, don't you think the business in Motor cars will just keep jumping? Register this thought on your brain with indelible ink, if you please.

Every man that knows anything about Autos will tell you that "RUBBER TIRES" beat iron, or springs, or what not; don't forget this.

MORAL:—Buy Rubber Acreage when it is in your reach; in 5 years more Rubber acreage that is producing \$300 net per acre will sell for \$3,000 to \$5,000 an acre. Remember Rubber Acreage in The Castilloa Rubber Plantation, is not Stock which can fluctuate, but you get your 75 per cent. of the crops, which is NET to you, and EACH year, the INCREASE therefrom.

The Man endowed with good "foresights" is a better man than he with good "HIND-sights." The men of "FORE-sight" and COURAGE are the men of FORTUNE today.

An investment made in Rubber Acre-Age, with judgment, may lift "YOU" beyond the necessity of Toil. ONE GOOD INVESTMENT IS WORTH A LIFETIME OF LABOR. Acreage, in all probability, will advance in price.

Our Oce will soon be opened in heart of City. Have received by last steamer, large amount of interesting matter on Rubber Plantation matters; write for circulars:
